Intruder C-18

Be sure to watch the “How shallow can she run”, video at www.dreamboats.net You won't believe it.

Outrageously Rugged

40 mph and less than four inches of draft.

A Simply Magical Ride

Smoothand Dry

Not your average Flats Boat

1200 LBS of BEEF on a side. Eric is a top guide and tournament professional.

Mike Embach and his girlfriend 5 miles off Crystal River Shark Fishing

Non Symmetrical Sponsons designed to fly while keeping you dry.

Rear bait well is about 15 gallons

The console has three doors.

The bottom of the console stores a 27 gallon fuel tank. It is well vented with room for up to three batteries.

Forward platform has three compartments, one is converted to a bait well.

Rick Barna's Fishing Machine

Intruder C-18 Basic Specs

Beam	At the gunwales (Side Rails)	7'8"
Weight without engine		Approximately 750 LBS
Maximum horsepower		115
Top Speed	with 90	44 mph
Recommended trailer is rated for		3500 LBS
Draft	Idle speed with four stroke 90 and jack plate	7-8 inches
	Idle speed with four stroke 50 and jack plate	5-6 inches
	On Plane	3-6 inches

The Intruder C-18 is one of the strongest, driest riding flats boat made by any company sold at any price in the world. There has never been a more fishable boat on the market. It is one of the smoothest rides out there as well, for what it is.

Although this boat is made strong enough to cross the Atlantic, and yes, we did it in a 21 ft version we don't recommend it.

Prices:

We know what it takes to build a great boat. We don't cut corners. We sell it at a great price, not high or low.

Until you have test driven our boats and realized for yourself just how shallow, how dry, how smooth, and how well built these boats are, it makes no sense to discuss the price.

Some would think we were too high because they were comparing us to a cheap product with inferior construction. Others, would compare us to expensive boats (not worth the money), and think we are too low.

We make an incredibly well built boat, and we know of no other boat made by any manufacturer at any price that has a better balance of safety, shallow draft, and superior construction than the Intruder. We think we sell it at a very fair price.

Come see us or some of our owners for more information.
